PMU Staff Recruitment

CTC: Based on candidate's qualification and overall experience, the initial CTC would be offered in the range of Rs. 10 Lakhs p.a.

3. Sr. Consultant – Field Assessment

The desired profile of the candidate should have Master's in Business Administration degree (MBA)

<u>Desired Experience:</u> The consultant should have 6+ years experience in overseeing the implementation of tools utilized in the project/field with the aim of enhancing operational effectiveness. Identification of field operational solutions that will improve productivity is also part of his responsibilities. S/he also oversees the implementation of best practices in the field that are likely to make the overall productivity and better service delivery experience. The field assessment consultant builds long-term relationships with the field office personnel as well as other managers, including the operations manager. S/he creates and tracks the core metrics necessary to drive the advancement of field operational activities.

Previous project management experience, particularly in field operations, is essential. A self-starter with a self-motivating attitude is preferred. A field assessment consultant is able to apply technical applications in business processes. Furthermore, he has strong interpersonal and managerial skills necessary to run the field operations team. S/he should have good communication skills to coordinate effectively with his/her team as well as other managers in different levels of the organization. Good problem-solving skills are also desirable since s/he will have to deal with problems the field operations team faces in its daily activities.

<u>Other Skills:</u>

- Strong leadership abilities
- Experience managing a large project
- Excellent organization skills
- Experience evaluating and training team members
- Analytical, goal-oriented work style
- Knowledge of IT/Computer related field
