To the Ministry of External Affairs

Sub: Information under RTI act regarding relation with Pakistan and China.

Dear Sir / Mam,

This is with request for asking something on the relation with Pakistan and china. As per our knowledge We are holding many relations with Pakistan like- Cultural links, matrimonial links, sporting ties, transport links, water, supply, working visa, diplomacy embassy, if we or our country don't like the relation with Pakistan, and government also want to action then why are you holding the connection with such country. Many country breaking international rules. Not a single benefit. I would like to ask you something.

- 1- Why are we holding diplomacy relation with Pakistan? What is our necessity?
- 2- Why are we not breaking the water supply, transport, matrimonial, sporting, working visa etc.?
- 3- Why we don't pressure on china while our 60% import from china yet we get fear from china.
- 4- In last a year our export to china is 11934 and import is 60413, 61% of our total import we import from china, what is your policy to control the same while we can control on some product too electronics, toys. If the china can ban Google why can't we some china products which effect on our gdp? We can press china by reducing import.

Regards,
Rishi k. Bhardwaj
