Meeting of EAM with the Chinese Foreign Minister

September 11, 2020

1. External Affairs Minister (EAM) held a detailed discussion with the State Councilor and Foreign Minister of China Wang Yi in Moscow on 10 September 2020 on the current tensions in the India-China border areas. The meeting lasted two and half hours.
2. EAM underlined that since the resumption of Ambassadorial level relations in 1976 and holding of boundary talks since 1981, India-China relations have developed on a largely positive trajectory. While there have been incidents from time to time, peace and tranquility has largely prevailed in the border areas. As a result, India-China cooperation also developed in a broad range of domains, giving the relationship a more substantive character. While the Indian side recognized that a solution to the boundary question required time and effort, it was also clear that the maintenance of peace and tranquility on the border areas was essential to the forward development of ties. The recent incidents in eastern Ladakh, however, inevitably impacted the development of the bilateral relationship. Therefore, an urgent resolution of the current situation was in the interest of both nations.
3. In the meeting, the Indian side highlighted its strong concern at the massing of Chinese troops with equipment along the Line of Actual Control (LAC). The presence of such large concentration of troops was not in accordance with the 1993 and 1996 Agreements and created flash points along the LAC. The Chinese side has not provided a credible explanation for this deployment. The provocative behavior of Chinese frontline troops at numerous incidents of friction along the LAC also showed disregard for bilateral agreements and protocols. The Indian side clearly conveyed that it expected full adherence to all agreements on management of border areas and would not countenance any attempt to change the status quo unilaterally. It was also emphasized that the Indian troops had scrupulously followed all agreements and protocols pertaining to the management of the border areas.
4. The immediate task is to ensure a comprehensive disengagement of troops in all the friction areas. That is necessary to prevent any untoward incident in the future. The final disposition of the troop deployment to their permanent posts and the phasing of the process is to be worked out by the military commanders.
5. At the end of their discussions, the Ministers reached an agreement on five points that will guide their approach to the current situation.
