

India - Croatia Relations

The Republic of Croatia (Republika Hrvatska in Croatian language, population around 4 million) proclaimed independence on 25 June 1991 after breaking away from the former Socialist Federal Republic of Yugoslavia.

India formally recognized Croatia in May 1992 and diplomatic relations were established on 9 July 1992. Croatia opened its Resident Mission in New Delhi in February 1995. The Indian Mission in Zagreb was opened on 28 April 1996, and upgraded to Ambassadorial level in January 1998.

During the days of former Yugoslavia, Croatia played an important role in the close links between India and Yugoslavia. Croatia accounted for more than two-thirds of trade between the two nations, including large scale purchases of Croatian ships by India in the 1970s and 1980s. Marshal Tito, who ruled Yugoslavia for more than three decades, was a Croat, and maintained close relations with the Indian leadership. Prime Minister Nehru and Marshal Tito were also pioneers of the Non-Aligned Movement.

These friendly linkages with India have continued after Croatia's independence, though Croatia's initial focus after independence was on addressing the ethnic conflict that followed the breakup of former Yugoslavia, and thereafter on integration with NATO (1 April 2009) and the European Union (1 July 2013). Croatia is now working towards joining the Schengen Zone and adopting the Euro currency.

In recent years, Croatia has resumed looking at other parts of the world, particularly Asia. India and Croatia currently enjoy robust bilateral political and cultural ties, and both countries are focussed on imparting greater economic content to the relationship. There is also close cooperation at the multilateral level.
